

I am writing to ask you to postpone the changes to FCC Regulations on June 2, 2003.

As a citizen, I believe it is virtually impossible to serve the public interest in this extremely important and highly complex proceeding without letting the public know about and comment on the changes you intend to make to these critical rules.

As a citizen I want rules in place that serve the public, rather than private, interest. I am against the corporate owners of the press in this country not discussing an issue crucial to the public interest because it could affect their bottom lines.
